EDUCATION

Marathwada Mitramandal Institute of Technology · Pune, India 2023 — 2027
Bachelor of Engineering in Computer Engineering First Year 6.84/10, Second Year 7.54/10, Third Year 7.90/10

Poona College Of Arts, Science & Commerce · Maharashtra State Board 2021 — 2023
HSC — Science Stream 53.50%

Pune International School & Jr. College · Maharashtra State Board 2011 — 2021
SSC 69.60%

EXPERIENCE

Artificial Intelligence Intern FEB 2026 — MAR 2026
Codec Technologies India · Remote

- Worked on Natural Language Processing (NLP) tasks as part of the internship project.
- Gained hands-on, industry-relevant experience in AI development.

Frontend Developer JAN 2026 — FEB 2026
CodeAlpha · Pune District, Maharashtra · Remote

- Built and styled web interfaces using HTML5 and CSS.
- Completed a one-month remote frontend development internship.

Virtual Intern OCT 2025 — DEC 2025
EduSkills Foundation® · Pune District, Maharashtra · Remote

- Completed a Data Analytics Process Automation virtual internship.
- Strengthened communication and time-management skills through regular tasks and interactions.
- Learned and adapted quickly to new technology and software applications.

CERTIFICATIONS

- Introduction to AI
- SQL
- HTML5 and CSS3
- Introduction to Large Language Models
- Web Development
- Introduction to AWS Cloud Game Development
- AWS Cloud Essentials
- Introduction to Agentic AI on AWS

PROJECTS

QuantumInsight
AI-POWERED QUANTUM COMPUTING PROJECT

- Built an AI-powered quantum circuit intelligence framework that analyzes Qiskit circuits, evaluates circuit health and maintainability, detects anomalies, generates optimization recommendations, and provides quantum debugging and hardware assessment insights.

Technologies: Quantum Computing, Qiskit, AI/ML, FastAPI, Next.js

Personal Finance Tracker
WEB APPLICATION

- Developed a website to track income and expenses with a systematic management approach for personal finance where user can track his assets and liability .

Technologies: Web, Finance

Spam Email Classifier
NLP · MACHINE LEARNING

- Built an NLP-based spam classifier using Multinomial Naive Bayes and CountVectorizer to distinguish spam from ham messages.

Technologies: Python, Pandas, Scikit-learn, NLP

Movie Recommendation System
RECOMMENDER SYSTEM

- Created a genre-based movie recommendation system using a dataset and a simple content-filtering approach with Pandas.

Technologies: Python, Pandas

Student Performance Prediction
STREAMLIT · MACHINE LEARNING

- Built a Streamlit app that predicts student pass/fail outcomes with confidence scoring, risk levels, categorization, and personalized study plans.

Technologies: Python, Streamlit, ML

Salary Prediction App
REGRESSION · STREAMLIT

- Developed an interactive Streamlit application that predicts employee salary from years of experience using Linear Regression.

Technologies: Python, Pandas, Scikit-learn, Streamlit

Smart Classroom Automation System
IoT-BASED PROJECT

- Built an IoT-based system that detects classroom motion and automatically turns lights/appliances on or off based on real-time occupancy.

Technologies: IoT, Automation, Sensors

TECHNICAL SKILLS

Technical Skills: Python, C++, SQL, HTML & CSS, Machine Learning, Data Analysis, NLP

Soft Skills: Project Management, Teamwork, Effective Communication, Problem-Solving & Critical Thinking, Adaptability & Learning Agility, Presentation Skills

Certifications:

Spoken Languages: English · Hindi · Marathi
